AGGREGATES MOZAMBIQUE LIMITADA

mondial
MONDIAL MOZAMBIQUE LIMITADA

SUPPLIERS OF PREMIUM CONCRETE AND AGGREGATE PRODUCTS TO THE CONSTRUCTION AND LIQUEFIED NATURAL GAS INDUSTRIES

Aggregates Mozambique Limitada (AML) is a trusted and reliable supplier of high-quality construction supplies to the Liquefied Natural Gas (LNG) industry in Northern Mozambique. With a strong commitment to excellence, sustainability and safety, we have established ourselves as a leading provider of essential materials that support the construction and operations of the neighbouring LNG facilities.

OUR MISSION

Our mission is to play a pivotal role in the success of the LNG industry in Mozambique by supplying top-grade construction supplies that meet the stringent requirements of LNG projects.

As part of our ongoing commitment to the well-being of our employees, clients, and the communities that surround our operations, we have implemented ISO health and safety, and quality assurance standards throughout our operations. We operate as good corporate citizens and comply with all country-specific legal requirements. We apply the International Labour Organisation codes of practice and, as part of our sustainability objectives, we employ and develop local people, and actively seek out social investment projects to assist surrounding communities.

OUR VALUES

Safety:	Health | Quality | Environment
People:	Collaboration | Development | Opportunity
Integrity:	Honesty | Responsibility | Accountability
Innovation:	Inspire | Evolve | Improve

AML

STRATEGIC PARTNERSHIP AND TRUSTED SUPPLY SOURCE FOR THE LNG INDUSTRY

The partnership between Aggregates Mozambique LDA (AML) and Mondial Mozambique LDA (MML) facilitates the efficient extraction of essential materials from MML's Quionga Quarry, located in Cabo Delgado, Mozambique. This extensive 2,205.91-hectare concession is licensed for 25 years by the Mineral Resources of Mozambique and is equipped with both an Environmental License and a DUAT, ensuring full compliance with regulatory standards. Strategically positioned just 40 kilometers from the LNG operations in Afungi, it serves as a crucial supply source for the region. To ensure the highest quality output, we utilise our cutting-edge Terex mineral processing system, renowned for its exceptional performance and high capacity. This advanced technology allows us to produce premium crushed aggregates and larger rock sizes for various construction needs, achieving compressive strengths of equal to/less than 40 MPa.
This partnership not only enhances operational efficiency but also reinforces our commitment to supporting the infrastructure requirements of the LNG industry.

All products are tested at our on-site laboratory to be assured our clients receive products that stand for competence and quality.

OUR PRODUCT RANGE INCLUDES:

1. AGGREGATES

AML provides customised aggregate blends in various sizes and technical specifications to meet specific construction project needs. Our aggregate products include:

- Concrete aggregates
- Premium sand (un-washed)
- Base coarse aggregates
- Sub-base aggregates
- Road surface aggregates
- Aggregates by design
- Ballast
- Gabion stone
- Oversize for civil works
- Delivery

2. BRICKS, BLOCKS AND PAVERS

AML's bricks, blocks and pavers are engineered to meet industry standards and cater to diverse construction requirements.

We operate two top-quality brick, block and paver-making plants, the capabilities of which, allow AML to produce high-quality products, rapidly, which is critical for project completion deadlines.

Our concrete bricks, blocks and pavers are available in various shapes, finishes and sizes, and include but are not limited to:

- High-quality bricks
- Industrial strength pavers
- Hollow blocks
- Retaining wall blocks
- Breeze blocks

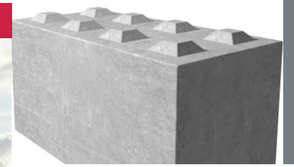

AML

3. READY-MIX CONCRETE

AML's ready-mix concrete solutions are tailored to meet the specific requirements of our clients' large-scale civil engineering and infrastructure projects. Ready-mix concrete is prepared at our plant in Palma, strategically located at the entrance to the LNG facility.
The product is transported to site, on demand, by Mercedes-Benz concrete spinner trucks.

4. PRECAST WORKS

AML specialises in delivering standard and custom civil precast solutions.

Interlocking Lego Blocks
Sizes from 600x600x600 to 2400x600x600

Uses Include:

- Perimeter barrier security for high-value and vulnerable locations
- Hostile Vehicle Mitigation (HVM) for sensitive sites
- Highways protection for workers and vehicles
- Retaining walls
- Civils applications
- Delivery and placement available

5. CEMENT

AML supplies large volume top-grade cement products to meet the demanding needs of the construction industry. Located on our premises, we utilise our de-bagging plant to assist with bulk deliveries.

At the heart of our operations lies a state-of-the-art weighbridge system that ensures precision in every delivery. Our weighbridge technology is instrumental in accurately measuring and verifying the weight of our aggregate products, guaranteeing our clients receive exactly what they order, without discrepancies. This meticulous approach not only underscores our dedication to transparency but also enhances the integrity of our service.

AML

DELIVERING THE BEST TO OUR CLIENTS

Due to the stringent demands on delivering quality material on time, and the pressure of deadlines on the LNG project, AML has invested in premium brand equipment (Cat, Bell, Terex, Mercedes-Benz) to ensure service delivery and reliability as a trusted supplier and partner.

We have an extensive fleet of new and used well-maintained modern, world-class plant and equipment, and delivery vehicles to support our experienced production and delivery teams. Our policy to only purchase from reputable suppliers, who have a well-established footprint across Africa, translates into advantages for our clients and ensures prompt and reliable deliveries precisely when they need them.

Our operators and drivers are experienced and trained in both the operation of equipment and safety.

AGGREGATE AND CONCRETE RESOURCES

MAJOR AGGREGATE EQUIPMENT

1 x Terex mineral processing system includes

- WJ3042 – Jaw Crusher
- WC1150 – Cone Crusher
- Terex Triple Deck Screen
- Terex MDS 515 Trommel Screen
- Sandvik QJ340 Jaw Crusher
- Finlay 694 Screen
- Finlay 683 Screen

MAJOR CONCRETE EQUIPMENT

1 x Ready-mix batching plant
7 x Mercedes-Benz/FUSO concrete mixer trucks
1 x Mercedes-Benz truck-mounted concrete pump with 35m boom

MAJOR BRICK, BLOCK AND PAVER EQUIPMENT

1 x PMSA VB1 brick, block and paver-making plant
1 x Brikenmayer VB6 brick and block-making plant
1 x Mercedes-Benz 6X6 crane truck 24t/m
1 x Mercedes-Benz 4X4 crane truck 17.5t/m

MAJOR QUARRY EQUIPMENT

3 x 50T Cat excavators
1 x XR50 Xcentric ripper
5 x 30T Bell articulated dump trucks
1 x Atlas Copco ECM660 drill rig
1 x Cat 140K grader
3 x Cat 950 wheeled loaders
1 x Cat tractor loader backhoe

SUPPORT EQUIPMENT

Cement trailers, diesel bowsers, compressors, water pumps, small concrete mixers, forklifts, generators, light duty vehicles and service trucks.
